MISMANAGED POSTOFFICE

Many Facts Are Coming to Light

Uncomplimentary to the Postmaster.

Lucky If He Holds Office Full Term.

It was an unlucky day for Postmaster Huntington when he inserted his meddlesome fingers and manipulated the most outrageous and underhanded scheme ever perpetrated in Benton Harbor—spiriting the postoffice to a location undesirable where nobody wanted it.

Inspector Larmour—who has been a postoffice inspector since Lincoln's time—declares that he is not a party to the sneak trick but that the local postmaster is all the fault. This statement of the inspector has caused the public to compare notes and the charges against the way the postoffice is being run are very numerous.

It is very likely that charges will be formulated and preferred to the department and Postmaster Huntington will either turn over a new leaf and serve the people or he will lose his job. A postmaster is the servant of the people, not their dictator as Mr. Huntington seems to believe.

The inside story of the resignation of Mail Carrier Phillips and the withdrawal of the resignation contains facts which are likely soon to be made public. They will not reflect credit upon the postmaster.

When a postmaster abuses the confidence of the public and spits upon the men who were his best friends he is a very foolish man if he hopes to receive continued favors.

Any number of republicans can be found who are ready to sign a petition for Huntington's removal. Compared with the administrations of ex-Postmasters Jarvis and Nichols the present service is wretched.

SPAIN'S LIMIT TO ACCEPT TERMS ENDS AT MIDNIGHT TONIGHT

Washington, Aug. 11.—Spain has until midnight to sign the protocol, which is both a preliminary peace contract and ultimatum. GO TO ST. JOE.

Fruit Growers Threaten a Boycott

If Benton Harbor Post Office Is Removed.

The opposition to the removal of the postoffice is growing every day. The fruit growers have taken a vigorous hand in the matter and many of them declare that if the office is moved to the unhandy place proposed that they will change their postoffice addresses to St. Joseph and haul their fruit and do their trading there.

The fruit growers point to the fact that Benton Harbor would not now be a free delivery office but for the postal business furnished by the fruit men and that their wishes should be respected.

The more the sneaking trick is discussed the more indignant the people are.

PEACE NOW IN SIGHT.

Protocol Prepared for Signature
by the United States
and Spain.

SAGASTA WILL DOUBTLESS SIGN,

Although It Contains Nothing That He
Would Naturally Admire.

Secretary Day Will Sign It as Soon as the
Don's Autograph Is Affixed—Navy Men
Want a Guarantee Before Hostilities
Cease—Speculation on the Composition
of the Treaty Commission—Day Counted
on as a "Sure Thing" for the Head on
Our Side.

Washington, Aug. 11.—The preliminary
negotiations looking toward the con-
firmation of peace advanced a long step
yesterday when the secretary of state
and the French ambassador agreed
upon the terms upon which future nego-
tiations for a treaty are to be con-
ducted, and reduced these to the form
of a protocol. This protocol is yet to
be signed, and is to be submitted to the
Spanish government before the formal
signatures are affixed, but the admin-
istration's view as to the progress made
yesterday was set out in Secretary
Day's sentence: "It is expected that this
protocol will be executed." There must
be a delay—possibly from twenty-four
to forty-eight hours—before the next
step can be taken and the protocol made
binding upon both the United States and
Spain by the attachment of the signa-
tures of the plenipotentiaries—Secretary
Day for the United States and M.
Cambon for Spain.

Spain Has Conceded Everything.

As to the character of the protocol, it
can be stated on authority that the
terms are in all practical points those
set out in the abstract of the president's
conditions published from the White
House a week ago. From this fact it is
deduced that the extra conditions or
qualifications sought to be imposed by
the Spanish government were abandoned
in large part by the French am-
bassador. This deduction is supported
by the circumstance that yesterday
morning there was a prevalent impres-
sion, based upon the utterances of pub-
lic men who had talked with the presi-
dent, that the Spanish answer was un-
satisfactory, and that the negotiations
looked as if they might terminate sud-
denly. As this situation changed so sud-
denly after the conference it may be
fairly assumed that the ambassador
abandoned the conditions which the
president was reputed to have regarded
as unsatisfactory.

Provision for Cessation of Hostilities.

It is believed that the protocol carries
within itself a provision for the cessa-
tion of hostilities. On this point the na-
val contingent is urgent that our gov-
ernment adopt the Napoleonic policy of
refusing to enter into an armistice with-
out acquiring some substantial pledge
to secure the consummation of
peace. What the navy men particularly
desire is that our government shall de-
mand as a condition of the cessation of
hostilities the surrender to the United
States military forces of Morro castle
at the entrance of Havana harbor, and
some such points of vantage at the other
important ports in the territory soon
to fall under our control.

MEN FOR THE COMMISSION.

Secretary Day Thought To Be Slated for
the Head—Other Mentions.

The peace negotiations are now be-
lieved to be advanced to a point where
the president has felt warranted in
turning his attention to the selection of
the commissioners to be charged by
the United States with the drafting of a
treaty of peace. So far as can be gathered
but one name has been positively
determined upon—that of Secretary
Day, who will head the commission.
Beyond that point there is no certainty,
although some prominent names have
been brought forward. Woodford, our
late minister to Spain, has been so
mentioned. One of the names that finds
universal approval among persons
versed in diplomacy is that of Eustis,
ex-ambassador to France, whose
staunch Americanism, combined with
diplomatic knowledge and legal ability,
are urged as fitting him especially for
appointment as peace commissioner.

The naval officers have made up their
minds that peace is at hand, and are
planning for a reduction of the naval
establishment to a peace basis. The
first step to be taken will be the retire-
ment of the monitors from active ser-
vice. They are uncomfortable craft to
live in, and afford the men little op-
portunity for general training. Another
matter which has received attention is
the promotions to be accorded to offi-
cers who have distinguished themselves
during the hostilities. A step was made
in this direction yesterday by the sub-
mission to the president of recommenda-
tions by the secretary of the navy for
the advancement of all of the officers
of Sampson's fleet who distinguished
themselves.

General Merritt's force in the Philip-
pines is to be increased by the 7,000
troops now at San Francisco, which will
be sent as soon as transports can be
obtained. Secretary Alger said yester-
day that 2,000 troops would sail at once.
The department has not sufficient
transports at hand to convey the re-
maining 5,000 at present, but the secre-
tary says that with those already ar-
rived and on the sea, together with the
2,000 which are to leave San Francisco
at once, General Merritt will have a
force of 18,000, and there will be no
hurry for the embarkation of the re-
maining troops.

Tramps Fall at Train Robbery.

Jefferson, Wis., Aug. 11.—Five tramps
boarded train No. 570, south bound,
Chicago and Northwestern, while stand-
ing on the side track in this city wait-
ing for the north-bound passenger. Two
of them grabbed Assistant Superinten-
dent Moulton, who was standing on the
platform, and the others entered the
car, demanding the valuables of the
passengers. Conductor Brown and Su-
perintendent Moulton, after a hand-to-
hand encounter, succeeded in capturing

OHIO MAYOR SERIOUSLY INVOLVED.

Letter and Photograph from Him Arrives
in the Mail for Mrs. Orr, Who Is a Native
of Wisconsin—Mayor Denies Having
Known Her—Wills Her Baby to Her
Father—Clarendon Society People Are
Greatly Shocked.

Little Rock, Ark., Aug. 11.—Investi-
gation following the lynching of five
negroes at Clarendon for the murder of
John T. Orr throws additional light on
the motive for the crime. It appears
from letters received by Mrs. Orr—
who committed suicide in the jail—in
the name of her cook, Rilla Weaver,
through whom all the correspondence
was conducted, that Mrs. Orr and
Rachel Morris were to remain there un-
til Orr's insurance was collected and then
go to New York, where they were to
meet two men and form a theatrical
company. Mrs. Orr also was in corre-
spondence with other men.

Many Wanted to Hang Mrs. Orr.

Mrs. Orr was in the corridor of the
jail Tuesday night when the mob en-
tered. She had taken something with
suicidal intention. The leaders of the
mob examined Mrs. Orr critically and
passed her, but many of them favored
taking her with the rest. Her death
was but a matter of a few hours. The
negroes were hanged from the elevated
tramway of the Halpern saw mill,
where they remained until 9 a. m. Great
crowds viewed the gruesome sight of a
woman and three men dangling six feet
from the ground with tongues protrud-
ing and ropes cutting deep into their
necks. The negroes seem to endorse
the lynchings, and many of them are
open in their expressions of satisfaction
over the death of Dennis Record, whose
arts of hoodoo and conjuring made him
an object of dread and fear to them.

Letter from a "Kid" Mayor.

With reference to Mrs. Orr's corre-
spondence with men the following let-
ter was received yesterday morning
signed "Ople's Real Kid Mayor." This
letter came in the mail from Caldwell,
O., dated Aug. 6, and reads as follows:
"Dear Lorilla: Enclosed you will find
a picture of me as I was on the 2nd
day of August, 1896. Another matter
has been brought to my attention since
I wrote you last, and that is that our
common pleas court convenes on Sept.
5, and I hardly see how I can get away
in the month of September. Perhaps
it would suit you to defer until October.
Let me hear from you in regard to the
matter. However, if you cannot defer
it until October I think I can arrange
matters all right, but if it would be
more convenient for you to defer it un-
til October I could stay longer with
you, as I would have all my court af-
fairs attended to for the September
term. Trusting that you will be pleased
with Ople's Real 'Kid' Mayor, I am still
yours,
ARTHUR O. ARCHER."

Gives a Shock to Society.

This letter is accompanied by a photo-
graph of the "Real Kid Mayor" in-
dorsed on the back, "Arthur to Lorilla." Lorilla is the negro woman who cooked
for the Orrs and Mrs. Orr carried
on all this sort of correspondence in
Lorilla's name. The people are sorry
that they were so terribly imposed upon
by this woman, who was admitted to the
first homes of the town, given a promi-
nent place in church work and every
consideration generally accorded good
people.

WILLS HER BABY TO HER FATHER.

"Kid" Mayor of Caldwell, O., Denies
Knowledge of the Woman.

Mrs. Orr died last night at 8:45 o'clock.
As soon as she was dead her body was
carried from the jail to her own home,
where her husband had met his death,
and shrouded by charitable hands. Mon-
day night she wrote a statement in the
nature of a will which reads in part: "I
want my father to have my baby Neva
and to raise her. I want her to have all
my effects. I want my body, if the
worst should come, to be shipped to my
father and to be buried where he is. I
hope that God will forgive Rachel [mean-
ing Miss Rachel Morris, who fled.] for
the way she has treated me. This state-
ment completed at 6:30 p. m., Monday,
Aug. 8, 1898."

Wallace Graham, Orr's business part-
ner, had telegraphed Mrs. W. T. Barker,
of Waupun, Wis., who is Mrs. Orr's
step-mother, telling her there was
trouble and to come at once. Yesterday
he received a reply asking the nature of
the trouble, and saying she and her
husband, Mrs. Orr's father, were greatly
distressed, but he was old and infirm
and could not come. Another letter was
received from Mrs. T. W. Deal, of Den-
ver, who is Mr. Orr's sister. Graham
had written her announcing the murder
of her brother. While she did not make
the specific charge it was plain from
her letter that she held her brother's
wife accountable for his death.

Caldwell, O., Aug. 11.—Arthur O.
Archer mentioned in the press dis-
patches as the writer of a letter to Mrs.
Orr at Clarendon, Ark., is the mayor of
this town, and a prominent member of
the Noble county bar. He is about 23
years of age. The correspondent of the
Associated Press at this place visited
Mayor A. O. Archer last night and re-
quested him to make a statement re-
garding the letter he is said to have
written to Lorilla Weaver for Mrs. Orr,
to which he replied that he knew nothing
whatever about the affair referred to,
and that he is not in any way con-
nected with the same, never having
heard of any of the parties before.

Waupun, Wis., Aug. 11.—W. A. Barker,
the father of Mrs. Orr, left Mauston,
Wis., about two months ago to become
a guard in the state prison here. His
family still lives at Mauston. Barker
was not to be found yesterday after-
noon, but neighbors say that he re-
ceived a telegram from his daughter
recently saying that her husband had
been shot through a window and giv-
ing some of the details of the assault.
She is a daughter to him by his first
wife, who died about six years ago. He
is a man of about 45 years of age and is

♣ Niles Merchants Will Not Oppose Electric Road..

Niles, Aug. 11.—The report that Niles merchants would oppose the building of the electric street railway through Niles is a canard. Niles business men are enthusiastic for it, and will welcome it. A canvass of business men and prominent citizens show twenty-four to be in favor of the road, ten against and seven undecided, though they slightly favor the road. The council cannot fail to grant the franchise, though they may designate certain streets on which it may run.

Two Niles Women Charged With Larceny.

Niles, Aug. 11.—Mrs. Hattie Turner of Buchanan and Mrs. Kate Hoover of Niles are under arrest here, charged with larceny. The latter was housekeeper for some time for Tierney and when he died, a sum of money amounting to \$200 was missing. Mrs. Hoover was arrested, charged with the theft, but no evidence could be procured and the case fell through. At the same time a gold watch and chain was lost and a few weeks ago Deputy Sheriff Wenger of Buchanan located the jewelry and worked up a case against the women.

TEACHERS' INSTITUTE.

Notes Concerning the Intelligent Gathering at St. Joseph.

The teachers in attendance will enjoy a trip to Somerleyton this evening. Mrs. Alice V. Haley of the Prang educational company has been giving instructions in drawing this week. She has shown by her work that the subject of drawing may be taught successfully in the rural schools so that the work requires very little outlay in material. No one of the instructors has been more popular than Mrs. Haley during her short stay at the institute. The hearty appreciation of her work was shown by the unanimous vote of thanks extended to her at the close of Wednesday's session.

The teachers are as enthusiastic and earnest during this last week as the first, and the attendance continues good. Berrien county may well be proud of her teachers and the work done in the schools during the coming year will have a broader scope because of this convention.

The regular county examination will be held next week conducted by Commissioner Clark and Examiners B. J. Benson and William Stevens.

Niles Rich Colored Man.

Niles, Aug. 11.—Lee Taylor, son-in-law of Andrew Jackson, the wealthiest coon in Niles, and probably Berrien county, quarreled with his wife last night and becoming enraged he knocked her down and then proceeded to smash everything in the house into kindling wood. He broke out every light in the house, smashed all the table-ware, and there is no telling where his temper would end had not the police appeared and arrested him. Taylor eloped with Jackson's daughter and married her.

Niles Boy Under Arrest.

Niles, Aug. 11.—Jesse Van Dine, the fourteen-year-old boy who stole Ivan Letcher's horse and buggy three weeks ago, is under arrest at Logansport, Ind. Deputy Sheriff Joseph Tennant has gone after the boy.

SIX MILES OUT.

COMPANY I IS THAT FAR FROM SANTIAGO.

Another Interesting Letter from the Special Correspondent of The Evening News.

Juragua, July 22.—Rumors are the stock in trade of every soldier in these days of uncertainty. At various periods of the day small groups of idle campaigners lounge under a friendly cocoanut and discuss the current "news" (as received from undeniably reliable sources) in a half languid, half eager fashion. Presently one will join the group, who, in answer to the customary "What news today," launches into a long recital of what some general's secretary's cook has said. In reality we know nothing. It is the general expectation that, within a short time, we will be shipped back to the United States.

The past week has been a busy one. The unloading of supplies, the policing of quarters, the burying of the dead and the nursing of the sick, have been a few of the many duties devolving upon us.

Yesterday our regiment was moved from Siboney to this place by train. We are now some six miles from Santiago.

Private Feleh, who was injured at the battle of Aguadores, was in camp this morning. He is nearly as sound as ever.

Berrien County Battalion Reunion.

The twelfth annual encampment of the Berrien county battalion will be held at St. Joseph, on Wednesday, Thursday and Friday, August 17, 18 and 19. Among those who will be present and make addresses will be Capt. Alex. L. Patrick of Detroit, department commander of Michigan G. A. R., Col. C. V. R. Pond of Lansing, assistant adjutant-general and quartermaster, Ex-Judge Thomas O'Hara of St. Joseph and Rev. H. L. Potter, a son of a veteran of Buchanan. The first day, the 17th, will be devoted to getting settled in camp and renewing old friendships, and in the evening there will be a camp fire under a big tent. The grand parade, led by the Evening News Newsboys' band, will be in the forenoon of the 18th, which is the main day, by the soldiers, Sons of Veterans and kindred organizations. Dinner will follow the parade, then an hour on Lake Michigan on the elegant steamer City of Chicago, then speaking, patriotic music, recitations, etc., at the park stand. A reception to our guests will take place in the evening, which will close the day's program. On Friday there will be the usual closing features of an encampment. All railroads in Berrien county offer a rate of one fare for round trip, tickets on sale each day, good to return on the 20th—C. & W. M., between New Buffalo and Bancor; Vandalia, between South Bend and St. Joseph; Big Four, between Niles and Benton Harbor; M. B. H. & C., between Buchanan and Benton Harbor. ♣ Governor Pingree Shows It in Regard to National Guard..

Governor Pingree has issued the following proclamation:

"Many applications have been made by companies desiring admission to the Michigan National guard. Upon the call of the president of the United States for troops our state militia volunteered in a body and are now doing heroic service at the front. The call was for four regiments from Michigan and Secretary Alger said it was the request of the president that we should take the National guard as far as they would go. It will be remembered that every company in Michigan volunteered, deeming it their duty to do so regardless of the great sacrifices they were many of them called upon to make. The state is now being put to great expense in caring for these soldiers as well as for the widows and orphans left at home.

"Out of respect to the members of the state troops who have left their homes and families, in response to the call of the president, all must concede

that they should have a voice in the reorganization of the National guard of which they have been members so many years, and present indications are that the war will soon be over so that they can participate in this work.

"It is also but right that the taxpayers of the state should not be put to the expense of creating a new national guard until some plans have been formulated for placing the state militia on a footing which will meet the requirements governing the army, which would save a great deal of time and useless expense should it ever again be necessary to call the state troops into the service of the government.

"Some action will undoubtedly be taken with this end in view by the next legislature and until the matter shall be taken up by the military board I will ask that citizens of this state refrain from making application for permission to organize companies as the state military board already has more than it can do in connection with matters affecting our soldiers.

H. S. PINGREE, governor."

TO CONGRESSMAN HAMILTON.

The republican voters of Benton Harbor and the republicans who receive their mail at the Benton Harbor postoffice have come to a fork in the road. Whether they follow the beaten path and give Mr. Hamilton a solid vote or whether he fails to poll 50 per cent of the republican vote in this community depends upon the action of himself.

Benton Harbor people are a queer people. When an officer slaps at their interests, when he allows one of his hired men to work them injury in a sneaking manner, they resent it. Not even for the sake of politics will they lick the hand raised to smite them.

It is for Congressman Hamilton to say whether he wants the support of the republicans of this vicinity or whether he prefers the good wishes of Postmaster Huntington and the wise man from the east—Mr. Larmour of Battle Creek.

THE EVENING NEWS speaks in this way after interviewing the leading and most substantial republicans in the city. Mr. Hamilton cannot afterwards say that he was not warned.

IN case the postal department should decide that the people had a voice in locating their postoffice, Postmaster Huntington and Inspector Larmour should be liable to Messrs. Hinkley & Son for damages. The Hinkleys are constructing a building after plans furnished by the government and any Berrien county jury would award them damages against the men who worked the snap game.

DANIEL Campau, the democratic chairman, will conduct the campaign on the line that Governor Pingree is an "extravagant demagogue." This will make but few votes for Whiting for everyone remembers how the democrats were anxious to nominate Pingree should the machine republicans defeat his renomination. The democratic campaign should at least be consistent.

THE question resolves itself as to whether this is a government of the people, by the people and for the people or a government of an officious postmaster, by a beguiled postoffice inspector, for an officious postmaster.

THE president has promoted Sampson one number ahead of Schley. What has Sampson done to deserve it? Schley has fought while Sampson has made out long reports.

SHELL games are now forbidden in every civilized community. Shell games, however, are not half so bad as snap games played on an innocent public.

HOODOO ON THE FIFTH

Illinois Regiment That Seems Fated to Forego All Military Glory.

HAD GONE ABOARD A TRANSPORT

Prepared to Start for Porto Rico, But Is Disembarked.

Signals Ordered to Stop Gen. Grant. But He Is Probably Out of Sight—Virginia Volunteers Indignant at Charges of Insubordination—Typhoid Patients for Fort Myers—Macias Reports the Loss of Coamo—Garcia Said To Be Moving.

Santiago de Cuba, Aug. 11.—Garcia has occupied Gibara, and it is reported that he is besieging Holguin with 8,000 troops.

Newport News, Va., Aug. 11.—After going aboard the transport Ogdan yesterday afternoon Colonel Culver, commanding the Fifth Illinois regiment, received orders to disembark his men and wait further orders. The ship's cargo of provisions remains intact, but she may be ordered to discharge it at any moment. It is not thought that the Fifth Illinois regiment will embark for Porto Rico shortly, though Colonel Culver is waiting orders to return to the transport. One of the causes assigned for the delay is the strike of the Ogdan's engineers for their pay. The engineers are mostly foreigners and are not enlisted men. It was stated last night that orders were sent to the Virginia capes yesterday to signal the transport Alamo with General Fred D. Grant and six companies of the First Kentucky regiment on board to turn back, but it is thought the steamer passed out before the orders were received, as she sailed at daylight.

Virginia Soldiers Indignant.

Washington, Aug. 11.—The officers and men of the Third Virginia are indignant because of what they say are false reports in regard to a disturbance at Camp Alger Monday evening. They say that the trouble started in a report that a hospital steward had been murdered by a colored man. The crowd which crossed the sally lines, they say, was composed of about thirty Virginia men, fifteen or twenty from the First Connecticut and ten or fifteen soldiers from other regiments. This crowd, they say, was soon brought into camp by an officer of the Third Virginia. Afterwards a much larger number of soldiers gathered to learn the cause of the excitement, but there was no serious disturbance.

Thirty-One Cases of Typhoid Fever.

Despite fords waist deep and muddy roads the Second division Tuesday reached Thoroughfare Gap, Va., covering two days' marches in one day. The troops were drenched, and had to camp on ground made soft by rain. The quartermaster's department performed its work well. Thirty-one typhoid fever patients will be taken to Fort Meyer hospital. Of this number twelve are from the Third New York, four each from the One Hundred and Fifty-ninth Indiana and Ninth Massachusetts, three each from the Third Missouri, Seventh Illinois and Thirty-fourth Michigan, and one each from the Sixth Pennsylvania and Thirty-third Michigan. The absence of field hospitals hampers the surgeons.

OMEN LIKELY TO BE TRUE.

Incident of Superstition on Board the U. S. Tug Uncas.

Key West, Fla., Aug. 11.—The tug Uncas, commanded by Lieutenant R. Brainerd, reached here yesterday after an exciting fortnight of blockade duty on the north Cuban coast. The Uncas holds the record of the three smaller boats for continuous blockade service and interesting experiences. While lying off Matanzas a day or two ago the Uncas was fired upon. She was within two miles of the shore when the sand battery of six-inch guns began to throw shells at her. Fully twenty of the missiles fell around the tug within a radius of 100 yards before she could get out of range. As she steamed away the Uncas returned the fire with her three forward and after six-pounders.

Then occurred a little incident illustrating the superstitions of seamen. The last shell from the Uncas' stern gun had just screamed away across the waters when a gaudy-winged butterfly which had blown off the shore hovered over the still smoking gun and settled down on its gruffy muzzle. A horny-fisted Irishman who manned the gun saw it and threw up his hands and shouted to Lieutenant Brainerd, "Say, captain, that settles it. That's the last shot we'll fire in this war." And there is not a man on the tug who is not thoroughly convinced that the butterfly's visit was a sure forerunner of peace.

MACIAS REPORTS COAMO.

Spanish Commander in Porto Rico Says He Abandoned the Town.

Madrid, Aug. 11.—An official dispatch received here from San Juan de Porto Rico says: "American forces returning from Guanamo attacked the heights of Guanamo. A guerrilla force under Major Cervera kept up a continuous fire for an hour and held the position, the enemy's attack being ultimately repulsed. We suffered no loss. The enemy's losses are not known. The village of Coamo has been attacked by a largely superior force and had to be abandoned. Our troops are retreating."

[Signed] "MACIAS."

Coamo, Porto Rico, Aug. 11.—[Copyright, 1898, by the Associated Press.]—Troop C, of New York, pursued the party of fleeing Spanish engineers after the capture of Coamo Tuesday, a distance of four miles along the road to Aibonito. The Americans were checked at the Cuyon river, where the Spaniards had blown up the bridge, and were shelled from a Spanish battery on the crest of Asontine mountain. The dismounted cavalry returned the fire, receiving no damage and holding the position. A battalion of the Third Wisconsin volunteers came to their support. Yesterday General Wilson's column rested, repairing the bridge and reconnoitering the enemy's position. There are formidable gorges on either side

and the Spanish works are on the crests of mountains commanding the road. The Spaniards have several guns mounted, among them two machine guns sent back into the country from the torpedo boat destroyer Terror at San Juan. These positions it will be difficult to flank. All the men wounded in Tuesday's fighting will recover.

GHOULISH KANSAS VOLUNTEERS.

Charged with Digging Up a Confederate Body for "Relics."

Washington, Aug. 11.—Among the regiments removed from Camp Alger and sent to new camping grounds at Manassas was the Twenty-second Kansas volunteers. What the Kansans did to signalize their arrival in the historic battle ground is thus described in the Manassas correspondence to the Washington Post: "Several members of the Twenty-second Kansas volunteers Saturday came across the grave of Major J. T. Drake, C. S. A., brother of General Basil Duke, of Kentucky, who fell at the battle of Bull Run, and, according to the story which reaches here, dug up his body.

"Some of the members of the party protested vigorously against such an act of desecration, but the others began to pull out the gold-filled teeth of the corpse, to break the skull into pieces for relics and to tear off the shoulder straps. Sunday one of the surgeons who was present on the occasion of the outrage was placed under arrest.

Germans Are Helping the Spaniards.

Vancouver, B. C., Aug. 11.—A Manila letter dated July 15, brought here by the steamer Empress of Japan yesterday, is as follows: "There is great friction here between Americans and Germans. The latter are helping the Spaniards in the most open manner. Dewey has told them that if this continues that there will be war between the two nations. We have come to the conclusion that the Germans do not want to help Spain, as they cannot afford to. They have not a sufficiently strong navy. They wish merely to obtain a few pickings after it is all over here. Spaniards looked upon them at the beginning as their deliverers, but their opinion is changing and Germany is now not very popular at this place."

Health Report from Santiago.

Washington, Aug. 11.—General Shafter yesterday telegraphed the following report from Santiago as to the sickness in camp, Aug. 9: Total number sick, 2,830; total number of fever cases, 2,047; total number new cases, 233; total number fever cases returned to duty, 3,7. The deaths Aug. 8 include Albert McKee, company A, First Illinois, typhoid fever, Aug. 9—John Hann, company D, Thirty-fourth and Thirty-fifth Michigan, typhoid fever; F. G. Covey, company M, Thirty-fourth Michigan, yellow fever; George Cullman, company L, Thirty-fourth Michigan, typhoid fever. The Tenth regular infantry left Santiago yesterday for Long Island.

Discipline Badly Needed Here.

Bartow, Fla., Aug. 11.—Sheriff Tillis went to Lakeland Monday for a negro charged with selling liquor. He arrested his man, handcuffed him and had him on the car. While waiting for the train to pull out twenty-five or thirty of the Tenth cavalry (a negro regiment) walked into the car and demanded that the sheriff release his prisoner. This Sheriff Tillis refused to do and in a moment he was looking down twenty-five or thirty revolver barrels. The soldiers then took the prisoner from the sheriff and walked off with him.

Change of Location of Troops.

Washington, Aug. 11.—In carrying out the policy of breaking up the large camps of troops the following changes have been ordered: To Knoxville, Tenn., Thirty-first Michigan and One Hundred and Fifty-eighth Indiana; to Huntsville, Ala., One Hundred and Fifty-seventh Indiana and Thirty-second Michigan; to Middletown, Pa., One Hundred and Fifty-ninth Indiana and Seventh Illinois.

Death of a Red Cross Nurse.

Chickamauga Park, Ga., Aug. 11.—Miss Dorothy Finney, a Red Cross nurse who came here to attend the sick soldiers at Letter hospital, died yesterday after a lingering illness. She was one of the most efficient nurses in the entire corps. She came from New Brunswick, N. J., and the remains will be shipped there for interment.

New Military Department.

Washington, Aug. 11.—A department of the army to be known as the Department of Santiago, was erected last night. Major General Henry W. Lawton is assigned to its command. Brigadier General Wood will continue in command of Santiago city.

One Regiment That Will Get Away.

New York, Aug. 11.—The auxiliary cruiser Yale has been ordered to proceed to Santiago with the Eighth Illinois volunteer infantry, which is coming from Springfield, via the Baltimore and Ohio railroad.

EIGHTEEN LOST IN ALASKA.

Steamer Founders in a River During a Heavy Storm.

Seattle, Wash., Aug. 11.—Further details state there were eighteen persons on the river steamer Jessie, of the Columbian Exploration company, which foundered in the Kuskokwim river, Alaska, during a severe storm during July 28. It is thought all were lost. The steamer Jessie at the time of the disaster had in tow the large Minerva, loaded with supplies. The news of the disaster was brought to the headquarters of the Alaska Commercial company by Indians, who had found the loaded barge belonging to the party partly wrecked.

The Indians asserts that the steamer foundered and that all of her party perished in the storm that swept down on them before they were well into the river, and only a few hours after they had left the steamer Lakme on which they had gone north. The Indians confiscated the supplies.

Young Hero Rescues a Woman.

Marinette, Wis., Aug. 11.—Mrs. Emil Umberham, wife of the landlord of the Arlington hotel, had a very narrow escape from drowning and was rescued just as she was disappearing under a log jam where she would have been beyond rescue. The hero of the occasion was Edwin Haase, the 15-year-old son of Louis Haase, who jumped in after her, and the second time she came up grabbed her just as she was about to disappear under a log jam.

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.

It is not so with THE CHICAGO RECORD.

The success of THE RECORD rests upon its reliability. It prints the news—all the news—and tells the truth about it.

It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres.

It is the best illustrated daily newspaper in the world.

Its war news service is unapproachably the best.

Says the Urbana (Ill.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."

A Daring Horseman.
"The day before General Lee surrendered," said a Confederate officer, "I crossed Sailor's creek, a small stream in Prince Edward county, Va., which follows the track of the Richmond and Danville railroad and empties into the Appomattox river. There was only a handful of my company left, and as I reached the summit of the hill which skirts its eastern bank I turned to see if the Federals—who had been hotly pursuing us—were in view. As I did so I observed a man wearing the uniform of a Confederate officer, riding slowly along the precipitous side of the stream opposite us, and evidently searching for a crossing."

"At this moment a long steel-tipped blue line of Federal infantry crowned the hill above, in full view and within easy range of the horseman. Apparently abandoning all hope of escape, the latter turned and rode directly toward the enemy's line. As we watched him, breathless with anxiety lest the signal of surrender should be too long delayed, he suddenly wheeled about, put spurs to his horse, and dashing down the declivity cleared the stream with a bound. Not a shot was fired at the bold rider. As he reached the opposite bank a spontaneous shout went up from the whole line—a generous tribute from the brave to the brave. A moment afterward the Confederate was in the midst of us and we recognized in him General James A. Walker, the commander of the old Stonewall brigade." — Philadelphia Times.

Too Tired to Work.
Malaguans do not want to be bothered or improved. They want to be let alone. They neither welcome you when you come nor speed you when you go. They are indifferent which you do. You may pay your bill to the day if you like or leave it if you had rather wait. Nobody will touch a coin or a valuable if you leave it on your table, but if you lose a pencil or an eyeglass no one will ever find it. It is too much trouble. Never hope to have letters forwarded, for you will see them no more, and few registered parcels escape the post office. A year ago—for we wintered there twice—I wanted to send a telegram and went to the principal office. Malaga is fourth or fifth in importance among Spanish towns. The office was only open twice a day for an hour or two at a time. Not a clerk could speak anything but Spanish, so I had to go back to the hotel for the interpreter to translate my message. When I returned with it, I wanted a note for 25 pesetas (francs) changed. All the clerks at all the pigeonholes were very kind and civil and smoked cigarettes while they looked for change. But the whole office could not muster it, so I was left to pay next time. It is as a life apart altogether.—Spectator.

Had to Hustle For a Captain.
Judge George E. Mann tells the following story about the Second company of the Richmond Howitzer battalion. "All the boys who wanted to be officers had been taken care of and the others preferred to be privates. Our first captain was George W. Randolph, who was afterward secretary of war of the Confederate states. He was succeeded by John Thompson Brown, who was afterward made a colonel of artillery. Then we tried to elect a captain, but none of the boys would have it. They went out to fight and were content to be privates. The duties of captain were onerous, and none of them cared to accept. We had to get a captain from another company." — Galveston News.

The Highly Gifted Cow.
It is said that something bordering on the miraculous has lately happened at Tickton, a village in Yorkshire. A farmer bought what he thought was a drinking trough for his cattle, which did very well for all his stock but one, and this was a cow that never would drink from it. This causing some inconvenience, the farmer mentioned it, until the fact came to the ears of a local antiquary, who on examination pronounced the supposed trough to be a font, and further research showed that it had once stood in the village church. It has now been recovered and replaced. — English Country Newspaper.

First Run on a Bank.
The first "run" on banking institutions in London was in 1667. Many Lombard street goldsmiths and bankers had lent out the money entrusted to them, and being called upon for payment were unable to meet the demand. A crowd of creditors and others assembled and a riot followed, in which four bankers were hanged at their own doors before order could be restored and the angry creditors persuaded that they were not being swindled.

Attaining Refinement.
Charles Dudley Warner was once talking informally to the students of the Art League in New York on "Refinement." "And how may one best attain to this ideal of refinement?" asked one young man.

Mr. Warner stroked his whiskers very earnestly for a space, but this was the utmost he could find of encouragement. "A very good way is to inherit it."

Clever.
Mrs. Petter—Did you see that? Dixon seized that rocking chair and was into it before his wife had a chance to reach it. And on his wedding trip too.

Mr. Petter—That's just it. There's where Dixon is smart. Nobody will suspect that he is on his wedding tour, don't you see? And besides, he gets the chair. — Boston Transcript.

Anecdotes of "Dizzy."
In G. W. E. Russell's "Collections and Recollections" are these anecdotes of Disraeli:
The atmosphere of a court naturally suited Lord Beaconsfield, and he had a quaint trick of transferring the grandiose nomenclature of palaces to his own very modest domain of Hughenden. He called his simple drawing room the salon; he styled his pond the lake; he expatiated on the beauties of the terrace walks, the "Golden Gate" and the "German forest."

His style of entertaining was more showy than comfortable. Nothing could excel the grandeur of his state coach and powdered footman, but when the dessert came up melting one of his friends exclaimed:
"At last, my dear Dizzy, we have got something hot."

And in the days when he was chancellor of the exchequer some critical guest remarked of the soup that it was apparently made with deferred stock.

When Lady Beaconsfield died, he sent for his agent and said, "I desire that her ladyship's remains be borne to the grave by the tenants of the estate." Presently the agent came back, with a troubled countenance, and said, "I regret to say there are not enough tenants to carry a coffin."

Won His Bet.
It is one of the proud boasts of Lord Charles Beresford that he can ride or drive anything. One day he may be seen tooling a four-in-hand, the next scurrying across country on a hunter or riding a bicycle. Perhaps the most curious ride Lord Charles ever had, however, was on a water cart, and thereby hangs a tale. He had wagered that he would drive down Rotten row in broad daylight, and, as our readers know, vehicles are forbidden in the row. At the appointed time the other party to the wager, with a few friends, took up a position to see if Lord Charles would attempt the feat. While they waited a water cart came along, and some of the party were liberally sprinkled with none too clean water. The victims protested in forcible terms, when, to their unbounded astonishment, the oilskins of the driver were pushed back, revealing the merry features of the popular sailor.

"Hand over that hundred, old fellow!" he remarked calmly. Lord Charles had squared the driver of the water cart, and had won his wager. — London Answers.

Firecrackers in China.
In China firecrackers can be purchased at a cost of 62 cents for 10,000, although the best quality commands twice this price. This is but little more than the actual cost of manufacture. The straw paper used is of the cheapest grade. The powder is also of cheap and inferior quality, which probably accounts for so many "sizzlers" in every pack.

Most of the firecrackers are made by women and children at their homes, and rapid workers are able to earn from 5 to 7 cents per day. An expert can earn 10 cents, while a novice receives only his board for the first four years. The wages paid in this trade are about the same as those paid the common laborer.

Goose on Friday.
"You never heard about the time that Judge Egan gave that prince of birds, the goose, a new place in natural history, I suppose?" said M. W. Fitzgerald to the Philistine.
"Well, a couple of years ago Judge Egan and Tom Conroy went over to lunch together one noon. 'What'll you have?' asked the judge.
"It's Friday," said Tom. "Give me some fish."
"Judge Egan let his eye wander down the bill of fare. He saw that there was goose on the bill and the soul of him hungered for goose. He framed up a decision to make the punishment fit the crime.
"Goose," said he. "A goose is a bird that swims in the water. That's clear enough. Waiter, bring me some goose!" — St. Paul Globe.

A Distressing Outlook.
A little Cleveland girl was greatly worried by the misfortune of a favorite playmate. The latter injured her knee by a fall, and for a time it was feared she might lose the limb. Happily this contingency was avoided, and in time the sufferer completely recovered. But when the outlook was dark indeed the sympathetic girl burst in on her mamma one day with the following excited query:
"Oh, mamma, did you know it was Bella's vaccination leg that was hurt?"

No, mamma didn't know it.
"Well, it is," cried the little sympathizer, "and, oh, mamma, just think, if they cut off her leg she'll have to be vaccinated all over again!" — Cleveland Plain Dealer.

STREET CAR VICTIM

Royalton Farmer Run Down in St. Joseph.

Car Was Running Fast and Could Not Stop.

Elias Minnick Has Broken Rib and Other Injuries.

Elias Minnick, a Royalton farmer, was severely injured last evening by being run into by an electric car on Main street, St. Joseph. Mr. Minnick's horse was so badly injured that it was necessary to shoot it this morning, while his wagon is a total wreck.

Last evening about 8:30 o'clock, Mr. Minnick was arriving into St. Joseph with a load of berries and when he reached Main street he drove on the street car track. A car from Benton Harbor was coming up Main street and Mr. Minnick failed to hear the gong or notice the head light. The motorman endeavored to stop when he saw that he was going to collide with the wagon but the car was going at such a high rate of speed that when it struck the horse and wagon it threw the occupant to the ground violently and broke one of the horse's legs.

Mr. Minnick was picked up and carried into the residence of Charles Foltz, where Dr. A. H. Scott was called. He found one rib broken and internal injuries, just how serious has not as yet been learned.

Many people in St. Joseph say that the cars run entirely too fast on that end of the line and there is talk of presenting the matter to the city council.

GAVE A BOND.

O'Connor Transportation Company Will Pay the Claim of Charles H. Carlton.

Yesterday afternoon when the steamer Lawrence came into St. Joseph the captain was not in his accustomed place above the pilot house, the first mate of the boat bringing her in. When the officers asked for the captain they were told that he was not on the boat but had remained in Chicago.

The captain, it will be remembered, cut the ropes of the boat Tuesday evening after a writ of attachment had been served. The attachment was gotten out by Charles H. Carlton who claims that the O'Connor company owes him \$119.49.

Secretary R. D. Farmer of the company gave a bond of \$250 yesterday thereby releasing the boat and also assuring Mr. Carlton of his pay.

Physicians of the American Medical and Surgical Institute, will continue to make regular monthly visits to this city for another year. Buried in the Well Where He Died.

Speaking of strange and sad occurrences, none could be more remarkable than the death and burial of Charles Carter, a well known farmer residing near Russell. He was cleaning out an old well when the quicksand suddenly caved in on him, leaving only his head and chest exposed. When the alarm was given, hundreds of people assembled and went heroically to work to save their neighbor. It was found that nothing could be done toward removing the sand about Carter's body, so a parallel well was dug and a tunnel run from it into the old well, but even then the body could not be removed so closely was it grasped by the sands. It was found that a rope attached below Carter's arms would pull the body into parts without withdrawing its covered portion, and that method had to be abandoned. Carter was conscious and talked with his rescuers, but at the end of 58 hours he died. By this time an enormous crowd had gathered, and all sorts of plans were suggested for recovering the body, but finally it was determined to make the well the dead man's tomb, and it was filled up after religious services had been held upon its brink. The well was 48 feet deep, and perhaps no other Kansan ever found quite so strange a burial place.—Kansas City Journal.

Dangerous Thief.

A French actress, traveling about the country, had for use in one of her plays a lay figure, skillfully put together and dressed in a traveling suit. So says the New York Herald, which proceeds to tell a comical story about it:

At Marseilles it was left in the luggage room with other things. The curiosity of two of the railway employees being aroused at the sight of it, they took off the coverings and resolved to play a joke on their comrades. They placed the figure in an armchair at the desk of the cashier and shut the door.

When the employees on night service came, they opened the door and were surprised to see a man sitting before the cash box. They immediately closed and locked the door and ran for assistance.

A policeman arrived, revolver in hand, believing, like the employees, that he had to deal with a dangerous thief. He called on the figure to surrender and follow him to the station. As it did not obey the summons, the policeman shut the door and went in search of re-enforcements to surround the place and thereby prevent the culprit from escaping.

The door was again opened, the armed force entered, and it was not till they had suddenly pounced on the poor lay robber that they discovered the joke.
